

# Geography

The study of people and places - Year 6 Autumn Term

Concept: Diversity

## Review

- Continents and oceans of the world
- Name and locate the vegetation belt of the world.
- The location of the equator and the tropics.

## What we will learn

- Name countries, major cities and surrounding oceans of South America.
- Describe the environmental regions of the continent of South America.
- Describe significant physical features of South America.
- Describe significant human features and the reasoning for their location.

## Enquiry

Does the distance from the equator impact the physical and human features?  
Are there any patterns?

## Key Vocabulary

Mountain range	A series of mountains located close together.
Rain forest	Dense forest rich in diversity with constantly heavy rain fall.
Sparse	Thinly scattered
Land-locked	A country surrounded by land
Desert	A waterless desolate land

Concepts:

Place

Space and scale

Change
